

Mango, cucumber, chili and coconut salad

INGREDIENTS

- Cucumber (thin strips)
- Mango (thin strips)
- Shredded fresh coconut
- Mint – torn
- Chili- finely diced
- Spring onion (optional)
- Lime juice

Well, that's it really. Get the above fresh ingredients from your garden or market and cut everything up in thin slices. Squeeze lime juice

over and add a little olive oil, salt and pepper. You can make this into a salsa by cutting everything into small cubes instead. Add in fish or seafood if you wish. Make sure those mangoes are nice and firm! Earlier in the mango season cucumbers are still hanging on in there!
