

# Chickens

CHICKENS CAN BE A VITAL PART OF THE CYCLING OF FOOD AND SOIL NUTRIENTS IN YOUR GARDEN

CHICKENS TAKE CARE OF WEEDS, PESTS AND FOOD SCRAPS, BUT BE CAREFUL NOT TO CREATE A RAT PROBLEM.

CHICKENS MOSTLY LOOK AFTER THEIR OWN HEALTH, BUT THERE ARE NATURAL REMEDIES FOR MOST ILLMENTS IF NECESSARY

CHICKENS LOVE GRAINS, WATER & FRESH GREENS EACH DAY - GROW SOME EXTRA FOR THEM LIKE SWEET LEAF, PUNG BEANS, MAIZE, CASSAVA AND GRAIN PLANTS

AND THEY ARE GREAT FUN TO HAVE AROUND TOO!

PLANTS LIKE PASSIONFRUIT, BANANA, PAPAYA, GUSTARD APPLE, MORINGA & MULBERRY WILL THRIVE AND FEED HUMANS & CHICKENS ALIKE. PROTECT THEIR ROOTS FROM SCRATCHING

PROVIDE YOUR CHICKENS WITH SOME DRY GROUND FOR DUST BATHS, EVEN IN THE WET SEASON

PROVIDE DRY ROOSTING AND LAYING SPACE AND TRY TO MAKE THE CHICK HOUSE PREDATOR AND RAT PROOF

ITS TOO HOT!

CHICKENS ARE FOREST ANIMALS AND NEED SHADE ALL YEAR ROUND

INSIDE A CHICKEN TRACTOR

# Ducks & Chickens

Great garden workers!

MANAGING  
YOUR  
VEGETABLE  
GARDENS

MANAGING  
YOUR  
ORCHARD

DUCK AND CHICKENS  
WILL CLEAN MANY  
WEEDS & WEED  
SEEDS, REMOVE  
PESTS, FERTILIZE  
AND TURN THE SOIL

A CHICKEN  
TRACTOR  
ROTATION  
SYSTEM

CREATES A TRAP  
FOR TERMITES  
THEN LET THE  
CHICKENS IN TO  
FEAST ON THEM

AN ANIMAL/  
VEGETABLE  
ROTATION  
SYSTEM

RANGING  
OVER A LARGE  
AREA
